Obsolescence

Summary

Part Lifecycle	Obsolete
Lifecycle Source	<a href="#">Product Discontinued Notice</a>
Notice Date	June 1, 2017
Last Time Buy	February 22, 2018 <span style="color: red;">LTB date already passed</span>
Last Time Ship	September 1, 2018 <span style="color: red;">LTS date already passed</span>
Lifecycle Comment	The part's lifecycle status has been confirmed by a trusted manufacturer source.

Obsolescence Insights

**Obsolescence Details**

The Manufacturer has obsoleted this part.

Obsolescence Criticality	<span style="color: red;">Critical</span>
Obsolescence Type	Family Obsolete
Obsolescence Comments	The FPGAs and CPLDs are being discontinued due to Intel PSG's package vendor phasing out its production line capacity for 8" eutectic / High Pb wafer bump capacity, and the declining demand for the legacy product families

**Market Availability**

Availability of the part with authorized sellers is an indication of the market demand.

Market Part Status	Non Stock
No. of Sellers	<a href="#">1 Seller(s)</a>
